

Notes from Text IG Report.

Page 33 - " Eliminate differential between deferred and routine if deferred used more.

Abuses - precedence, content & length - preliminary dissemis - should use courier OB reports from Pull.

Page 36 - Suggestion establishment world wide courier pouch - economy vs cable pers???

Page 36 - 37 It is recommended that:

- a. The Director of Communications, in conjunction with the DD/P, DD/I and DD/S, be directed to review all material processed via staff communications channels which does not fall within the definition established by this survey, and discontinue transmission of all categories in which operational need cannot be clearly demonstrated.
- b. The D/CO in conjunction with the DD/S, DD/P and DD/I review and implement where feasible the actions outlined in IV. B. 5. above as a further means of reducing cable traffic.
- c. The DD/P, DD/I and DD/S be directed to prepare, in conjunction with the D/CO, a specific and decisive Agency directive based on implement of the recommendations above which will require a substantial reduction in the volume of cable traffic within 60 days of its issuance.
- d. If the two actions recommended above do not effect a substantial reduction, then the DCI should direct a flat 25% reduction in the amount of cable traffic accepted for processing by the Washington and field Signal Centers. Cable traffic in excess of this volume will require the personal approval of a Chief of Station or a CS senior staff or division chief. The Signal Center will maintain a record of such excesses by unit, for submission to the DCI on a monthly basis.
- e. Coincident with the above, that the DD/S, DD/P and the Director of Communications conduct a study of the feasibility of establishing an agency world-wide courier pouch service, with specific reference to its cost, as opposed to resulting economies in the Agency's staff comm system."

Notes from Text of IG Report.

Page 41 - Separation on marriage to foreign national. Is OC an exception?

25X1C4a
25X1C4a

Page 46-47 - Mention of lack of quid pro quo for services [REDACTED] - Does not mention tfc processing [REDACTED] world wide.

Page 82 - OC grade structure compared other Agency units is inequitable. In DD/S only Audit and Management have fewer super grades (OP & Compt. each has 4 on duty) Agency average 8.8, OC 8.1 (OTR 8.8, OL 7.1).

Page 86 -88 Budget - OC work good - responsibility however should be in OC-A not P & P

Page 88 - 96 - Career Service - very good. Slow down rotation especially top job. s

Page 94. indication women may be penalized due lack complete flexibility.

Page 95/6 - Senior admin from OC or DD/S ? ? ? ?
